

Voluson S10 Expert

GET AHEAD. STAY AHEAD.

Voluson™

A Healthier Future for Women

gehealthcare.com

KEEP ADVANCING WITH THE **Voluson S10 Expert**

Keep advancing with the powerful ultrasound system that puts you and your practice at the forefront of women's health. Take another step forward with the Voluson S10 Expert, the smart investment that inspires confidence with fast, clear, and consistent imaging. Scan with more ease and accelerate your workflow supported by our industry-leading technology and advanced AI. And leverage Voluson's entire ecosystem to go even further into the future.

Performance That Inspires Confidence

To deliver the best care, it is essential to diagnose earlier and with greater confidence. The S10 Expert helps you tackle your most challenging cases with speed and accuracy. With exceptional imaging performance and advanced tools, scan your most difficult patients while keeping your busy schedule on track.

GET AHEAD. *Images that amaze*

With our powerful Voluson Core Architecture, you will consistently experience exceptional imaging and penetration across a variety of exams, even the most challenging cases.

Radiantflow™ delivers advanced color performance that provides a dynamic, 3D-like appearance to help identify even the smallest vessels.

Get the answers you need earlier than ever with our high resolution, high frequency C2-9-RS XDclear™ probe for 1st trimester and detailed obstetric exams.

Move through your day with greater ease and efficiency. The S10 Expert is loaded with features to help simplify tasks and enhance productivity without ever compromising care.

Let Voluson's Sono-Automation tools do the work for you. By automating calculations, you can save time, enhance consistency, and improve accuracy.

You know how important 3D is in assessing uterine anomalies and pathology. With Uterine Trace you can now acquire a volume and display the coronal view in just a few simple steps.

STAY AHEAD. *Accelerate your workflow*

Innovation That Takes You Further

GET AHEAD.

Expert capabilities made affordable

As your practice advances, you need a dynamic system that advances with you. The S10 Expert allows you to experience industry-leading technology migrated from our most progressive ultrasound platform at a more approachable price.

Utilize SonoCNS, which harnesses the power of AI to reduce the complexity of evaluating the fetal brain. The system automatically orients the volume and displays the appropriate views and measurements, essential for diagnosing CNS malformations.

Move confidently into the future with industry-leading technology knowing that your system is engineered for growth and meant to continue evolving with new innovations.

Can help reduce keystrokes by 82%¹
